APPLICATION FOR AMENDMENT OF POLLUTION CONTROL PER- MIT PE-351, PURSUANT TO SEC. 6 OF POLLUTION CONTROL ACT, 1967.

THIS APPLICATION is to be filed with the Director, Pollution Control Branch, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13 (2) or (3) of the *Pollution Control Act, 1967* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or, where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

Central Fraser Valley Regional District, of Box 490, 26982 Fraser Highway, Aldergrove, B.C. V0X 1A0, hereby applies for amendment to clauses (b), (c), and (d) of Permit PE-351, issued on June 19, 1970, in favour of Central Fraser Valley Regional District.

To authorize additional works other than those previously authorized by adding the following to (d) of the appendix: "an additional aeration and detention pond will be provided to treat septic-tank pumpage from the Central Fraser Valley Regional District areas. Effluent from this pond will overflow into the primary aeration pond for treatment with the district's sanitary sewage and ultimate discharge to the Fraser River, all as shown on the attached plan."

To change the quality of the effluent by deleting that part of section (c) of the appendix which reads "... an average of suspended solids, 140 ppm; BOD, 140 ppm; no toxic chemicals." and substituting in its place the following: "... a maximum of suspended solids, 60 mg/l; BOD, five day 45 mg/l; no toxic chemicals; effluent chlorination providing one hour contact at average flow rates and free chlorine residual between 0.1 and 1.0 mg/l."

To increase the "quantity to be discharged" by deleting that part of section (b) of the appendix which reads "1,500,000 gallons per day" and substituting in its place the following: "3,000,000 gallons per day".

This is the maximum quantity of sewage which can be treated by aeration and detention in the stabilization ponds by adding more aeration and constructing a third-lagoon cell.

I, B. D. Jamieson, Administrator, hereby certify that a copy of this application

has been received by the Central Fraser Valley Regional District.

This application, dated on the 17th day of February 1975, was posted on the ground in accordance with the Pollution Control Regulations.
